

CredBuddha Financial Operations Policy

CredBuddha 2026 Internal Operations Policy

1. Employee Travel Expenses

All CredBuddha employees are entitled to a daily meal allowance when traveling for business. The maximum reimbursable amount for dinner is \$65.00 per day. Alcohol is strictly not reimbursable under any circumstances. Flight bookings must be made at least 14 days in advance using the corporate travel portal.

2. Software Subscriptions

If a department needs a new software tool (like GitHub Copilot or Groq API access), the manager must submit a request to the IT Procurement team. Subscriptions under \$100/month are automatically approved by the system. Subscriptions over \$100/month require manual review by the CTO.

3. Remote Work Equipment

Employees working fully remote are granted a one-time stipend of \$500 to set up their home office. This stipend can be used for a desk, ergonomic chair, or extra monitors. Keyboards and mice are provided directly by the IT department and should not be purchased with the stipend.

4. Client Meetings

When taking a prospective client to lunch, the budget is capped at \$120 total for the table. Receipts must be uploaded to the CredBuddha Expense Portal within 48 hours of the meeting.
